

## Intensive Spanish Course

Casa Xitla opens its doors to a unique program of immersion to know Mexico from INSIDE MEXICO.

Casa Xitla is Mexico's only non-profit center dedicated to peace, human rights, arts, spirituality, and environmental sustainability.

Moreover, Casa Xitla is a place of peace and contemplation, that allows the world's beauty to be expressed through the arts, and to develop academic and scientific ideas.

Finally, Casa Xitla is a place to meaningfully connect with others or to simply reconnect with oneself.

All our activities at Casa Xitla are directed toward what we would like to achieve, or at least be a part of achieving: a sustainable world of equality, unity, respect, fellowship, justice and happiness.
